Curriculum Vitae for Christopher Pavan

Chris is an EnCase Certified Examiner working as a consultant providing computer forensic and computer security services. Chris started his professional career serving in the U.S. Army as an Electronic Warfare Technician. After being honorably discharged, Chris continued to support U.S. Military operations around the globe as a contractor specializing in electronic warfare. Over the course of his professional career he has set up and secured U.S. classified networks for the Department of Defense and State Department, performed critical Data Recovery operations and conducted numerous forensic examinations in support of civil, criminal and military investigations. Chris maintains a steady forensic and eDiscovery caseload while performing research and development of Digital Forensics Solutions offered by 42.
